Prepare for all situations

The range of natural hazards that affect Queensland can cause major disruptions to essential services. One of the most important steps you can take is to prepare your Household Emergency Kit.

Your Emergency Kit is a collection of items that provides for your household's essential needs in the event of emergencies like storms, floods and cyclones. Your kit should be kept in a sturdy, easy to carry bag or waterproof storage box and stored in a safe place that is easy to access. See page 13 for an emergency kit checklist. Accessed from - www.emergency.qld.gov.au/emq/css/emergencykit.
